

جمعية أطباء الفم والأسنان البحرينية BAHRAIN DENTAL SOCIETY

Date: 13.06.2009.

To: All Dentists
Subject:

BIONJ... What is it?! **What are its' complications in Dentistry?** **23rd June 2009**

Educate your friends and family members on the effect of BIONJ & save your patients by knowing what they suffer...

Bahrain Dental Society's next scientific activity is a discussion of the Medical Condition BIONJ, which Bisphosphonate-induced osteonecrosis of the jaws is the correct term for this real drug complication that most dental practitioners face. This presentation will focus on the reviewing the mechanism and clinical picture of BIONJ as well as risk factors, prediction of risk, prevention, and treatment.

The speaker at the event will be Dr. Badr Al-Jindan, Assistant professor and Head of Oral and Maxillofacial Surgery (OMFS) at the College of Dentistry, King Faisal University, Saudi Arabia, and Adjunct professor at the Faculty of Dentistry, McGill University, Montreal, Canada. Dr. Al-Jindan is a Consultant in OMFS at King Fhad Hospital, Al-Khobar, Saudi Arabia, as well as maintaining a private practice at PROCARE Hospital, Al-Khobar, Saudi Arabia.

The event will be held at the Bahrain Dental Society in Juffair 23rd June 2009.

Speakers: Dr. Badr Al-Jindan
Place: BDS Juffair
Date: 23rd June 2009
Time: 2030-2130 followed by dinner
