Date: 16.01.2009.

To: All Dentists

Subject:

## Laser Dentistry..Enhancing Dental Treatment with Laser On 26<sup>th</sup> January 2008

Dear Colleagues,

Bahrain Dental Society's next scientific activity is a lecture entitled "Laser Dentistry, Enhancing Dental Treatment with Laser" presented by Dr. Lamya Mahmood and sponsored by Cataflam. It will be held at Movenpick Hotel on 26<sup>th</sup> Jan 2009 instead of 21<sup>st</sup> Jan 2009 as was outlined in the Scientific Program 2008-2009.

In 1989, the first laser specifically designed for dental use became available. Today there are two dozen indications for use with various dental laser devices; and the clinical applications continue to increase, making the laser one of dentistry's most exciting advances with unique patient benefits and experience.

Laser dentistry can be a precise and effective way to perform many dental procedures Dr. Lamya will be sharing with us her experience about the new buzzword in dentistry: LASERS! This presentation will be a brief overview of dental laser, types of laser, laser safety protocols, and the application of laser dentistry (case presentation)

**Speaker: Dr. Lamya Mahmood**

**Place:** Movenpick Hotel

**Date:** 26<sup>th</sup> Jan 2009

**Time:** 2030-2130 followed by dinner

Hope to see you all there☺.

Kindest Regards,

Dr. Ameera Radhi.

Scientific Committee Chairman.

**1 Hour CPD Accredited**
